

WOMEN'S HISTORY

WRITTEN BY HUMBLE HOME
CARE SERVICES

Humble Home Care Services was founded by a woman and the majority of our workforce consists of women. It is women that are the backbone of this small business and this month we celebrate the vital role women play in the Home Care Industry.

"Each time a woman stands up for herself, without knowing it possibly, without claiming it, she stands up for all women."

THE BACKBONE OF SOCIETY

Think of the women in your life, who are they, and what do they mean to you? What kind of support have you offered them? Have you had meaningful discussions regarding issues they may be facing? Have you celebrated their achievements?

As a male, I have been biased in the past when women's issues are brought up. What I didn't realize is that my judgment was being clouded by a point of view skewed by years of ignorance. In order to bridge the gap of understanding, one has to begin by listening. Listen to the experiences women and girls go through, understand that you unconsciously may be playing a role that is contributing towards being biased against women.

Growth is the process of breaking old barriers and creating a new path towards equality for both genders. Equality can be viewed as similar to the two sides of a coin, although different both "heads" and "tails" constitute the make-up of a coin. And as such both human genders make up our society
